

HC Meeting Minutes: 050318

Attending: Jakki Trihey, Nadine Holthaus, Savita Katarya, Kolloh Nimley, Rob Van Croenenbroeck

Kolloh shared information about the upcoming Match Celebration for the International Medical Graduate (IMG) program as well as provided an update from the recent IMG forum held in Minneapolis.

Rob walked everyone through his vision for the upcoming work session on May 17, which will allow taskforce members to focus on one of two workgroups: Education, training & pipeline, and Retention.

Each subgroup will meet and recommend strategies for outreach and awareness and then share information back to the entire committee. This will allow the taskforce committee members to develop one overall outreach or marketing plan, along with a timeline and measurements/definitions of success.

Rob will draft a reminder message to share the plan for May 17, which will be sent early next week, along with an RSVP date of 5/11. Low attendance may require us to reschedule or cancel this meeting.
